About the CIO 100 Awards

The annual CIO 100 Awards celebrate 100 organizations and the teams within them that are using IT in innovative ways to deliver business value, whether by creating competitive advantage, optimizing business processes, enabling growth or improving relationships with customers. The award is an acknowledged mark of enterprise excellence. Recipients of this year's CIO 100 Award were selected through a three-step process. First, companies filled out an online application form detailing an innovative IT and business initiative. Next, a team of external judges (many of them former CIOs) reviewed the applications in depth, looking for leading-edge IT practices and measurable results. Finally, CIO editors reviewed the judges' recommendations and selected the final 100.
