

# Northwestern Mutual to Deliver Record-Setting \$7.3 Billion in Dividends to Policyowners

*More than \$150 billion paid in dividends throughout company history*

MILWAUKEE, Sept. 28, 2023 /PRNewswire/ -- Northwestern Mutual announced today that it will continue its longstanding tradition of awarding its policyowners a record-setting and industry-leading annual dividend – a sum expected to reach \$7.3 billion in 2024. The company has paid a dividend every year since 1872, totaling more than \$150 billion over that span.

The anticipated \$7.3 billion dividend payout in 2024 includes the highest amounts in company history for policyowners across whole life insurance (\$6.1 billion), disability insurance (\$550 million) and annuities (\$240 million).

"Our exceptional financial strength and superior product value are hallmarks of our company – differentiating Northwestern Mutual in the marketplace and deepening trust with all those we proudly serve," said John Schlifske, the company's chairman, president and chief executive officer. "Next year's historic dividend demonstrates once again our unflinching focus on returning value to policyowners and guiding their journey toward greater financial security."

For those Northwestern Mutual policyowners who receive dividends, they can choose how to apply those funds – including the option to increase the cash value and/or death benefit of a life insurance policy, to fund an urgent financial need by receiving the payout as cash distributions, or to reduce out-of-pocket costs of premiums.

"Northwestern Mutual remains committed to paying the highest level of dividends over time while retaining our truly exceptional financial strength," said Schlifske.
