

Northwestern Mutual extends its support to families and businesses affected by the severe weather and flooding in Tennessee

For Policyowners residing in Tennessee:

Please contact us if you have suffered property damage, injuries, or loss of life because of the catastrophic events, or if you have experienced disruption in receiving mail or have been displaced from your home due to severe weather and flooding. The Tennessee Insurance Department has directed insurance carriers to work with their policyholders on granting extensions of time to make premium payments to avoid policy cancellation.
